

FOOD SERVICE MANAGEMENT

The Board of Education recognizes that the South Colonie Central School District's Food Services Department and cafeterias play an integral role in the students' educational day. The Board shall therefore provide adequate facilities, resources and personnel for all elementary and secondary students in District schools in order to ensure that the Food Services Department can achieve the goal of meeting the students' nutritional needs.

Food Service Management is the responsibility of the School Food Services Director. The school Food Service program shall be operated in the most economical and efficient manner, considering required state regulations, given the students' needs and the District's resources.
