Dear South Colonie Parents and School Community Members:

Recently, while attending a few large evening events, I have noticed personal vehicles which were left parked within fire lanes. While we understand parking can be challenging at times, please avoid parking directly in front of, or near, main entrances and exits at large events. These areas have been identified with appropriate signs.

We are certainly proud to host large events and welcome our parents and community members into our buildings. With that shared, please understand that safety always needs to be a top priority. Our local Fire Departments, as well as EMS First Responders, expect us to keep these lanes and areas clear in the event that we do have a situation which requires a timely response.

I thank you in advance for reviewing this important request.

Sincerely,

A handwritten signature in black ink that reads "Jonathan W. Buhner". The signature is written in a cursive style with a long, sweeping underline.

Jonathan W. Buhner
